### Software

Visual Studio Code, Cinema 4D, Adobe Creative Suite, Sketch, Blender, Maya

## EXPERIENCE

### Spanish Ministry of Education

Sept 2018 - Jun 2019

Language & Cultural Ambassador: North America

- Led 12 sections of English Conversation and 3 sections of Grammar to Spanish-speaking students aged 16-18 at a public high school just North of Madrid Center

### Interbrand

May 2017 - Aug 2017

Design Team Intern

- Built the 2018 campaign for The Rubin Museum of Art
- Presented campaign work in a series of 4 client pitches, leading exercises and discussion in feedback sessions
- Produced motion graphics for clients, like Google, Varian, Cars.com, Mint, Intuit, and Mars, Inc.

### Viacom International

May 2016 - Aug 2016

Nickelodeon Post-Op Intern

- Managed workflow systems that supported all post production longform media libraries for Nickelodeon
- Inspected digital work-reels before they aired, guaranteeing adherence to the guidelines required for international repurposing, and that proper metadata was always available to programming team

## Most Recent Work

### Cantar

An open-source application where you can study English, or Spanish, by listening to music.

Built with React.js, MongoDB, Heroku, Javascript, HTML, CSS, Cantar users can search lyrics, translate directly, track learning, save to vocabulary, and more.
